5. Once in the Waiting Room, click "Join Session" once the button is green. This button will be green if the session has already started. If the session is yet to start it will be greyed out and you need to wait for the Moderator to start the session.

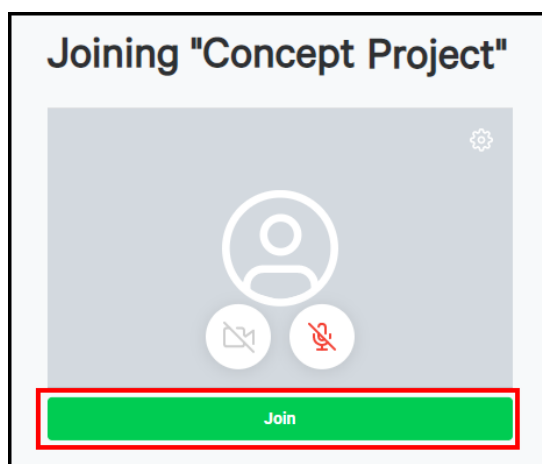

6. Finally, even though you will not be using it, you will be asked to allow access to your microphone before joining the Live Meeting Room.

Note: By Default, Observers cannot start their webcam and are muted, so Respondents will never be able to view your webcam image or hear your voice.

7. Once camera and microphone access are allowed, you can click "Join" and you will be directed to the Meeting Room.

Note: Respondents cannot see you logged in as an Observer in the Live Meeting Room.
